COMMERCIAL & INDUSTRIAL SOLAR

कारोबार के लिए सोलर

Shops, schools, factories and farmhouses across Madhya Pradesh — engineered, financed and maintained end to end by Lakecity Solar Energy.

पैसा वसूल · PAYBACK

3-5 साल में वसूली

Most C&I systems pay back in a few short years, then run on near-free power for decades.

WHAT WE BUILD

● Rooftop Solar

For homes and housing societies under PM Surya Ghar — design, install, full subsidy paperwork and grid sync, handled end to end.

● Commercial & Industrial

Shops, schools, factories and farmhouses — bigger systems that pay for themselves in a few short years.

● Maintenance & Support

Monitoring, scheduled cleaning and quick fault response — five years of service free, keeping every plant at peak yield.
